PROFESSIONAL SUMMARY

Highly motivated Graphic Designer, a graduate of Robert Morris University with over seven years of creative problem solving in advertising, in-house, and freelance design. I am proficient in both a Mac and Windows environment - including Adobe Creative Cloud software. I possess a strong knowledge of design, layout, photo editing/directing, consumer branding, project management, and print production. I am detail-oriented, accustomed to performing in deadline-driven environments, and can thrive independently or in a team dynamic. I aim to keep myself updated on the latest design trends and always strive to surpass expectations in any job. In addition to my chosen career path, I have several years experience in retail and customer service which have enabled me to communicate and problem solve effectively in various situations.
